

## Study Advert

My name is Hannah Murray, I am currently a postgraduate Masters student at the University of Strathclyde studying Autism.

Volunteers are needed for a research study entitled:

### **An investigation into the dating experiences of adults with Asperger's Syndrome**

Participants must be over the age of 21, have a diagnosis of Asperger's Syndrome (AS) and have either an interest in, or experience of dating and romantic relationships.

This anonymous study provides a unique opportunity for adults with AS to express their opinions and feelings on a subject which has received very little research attention.

Participants will have the opportunity to engage with the study from a variety of options that suit your needs. There is an online questionnaire which can be completed independently, or you can choose to participate via an interview via either telephone, Skype or Instant Messenger (details below). You can answer in as much or as little detail as you want and you can 'pass' on any questions you don't want to answer.

The deadline for participation is 31/11/16

### **Taking Part**

Before any participation, you are required to read the attached Participant Information Sheet which outlines further details of the study, including information about the confidentiality of your involvement.

From there you can either fill out the online questionnaire, or alternatively, if you would like to take part via interview, this can be arranged via my e-mail address:

[hannah.murray.2013@uni.strath.ac.uk](mailto:hannah.murray.2013@uni.strath.ac.uk)

If you have any further questions, please don't hesitate to get in touch.

I would like to thank you in advance for your time and attention.

Hannah Murray
