Research into Autism Spectrum Disorder and Anxiety

Help us find out more about Autism Spectrum Disorder and Anxiety !

We are looking for **Adult Males and Females with High-functioning Autism or Asperger's Syndrome.**

Our study investigates emotion perception from faces and voices in ASD and anxiety.

Benefits of participating:

- Learn more about ASD and Anxiety
- Have a chance to win a £ 25 Amazon gift card
- Get £ 6/hour if you come for the experiment
- There is the potential for a follow-on brain imaging experiment involving functional Magnetic Resonance Imaging (fMRI). Participating in this will give you the opportunity to get a picture of your own brain.

If you are interested and want to find out more

- Please complete 10 minute online questionnaires at:
<http://experiments.psy.gla.ac.uk/experiments/assessment.php?id=205>
(Please make sure you register with the website first).
- You will be contacted to participate in an experiment where you will identify emotional expressions from faces and voices.

If you have any questions, please contact Peipei Liu at peipeil.2@research.gla.ac.uk
The study will take place in 58 Hillhead Street, School of Psychology, University of Glasgow.

Please forward this information to anyone you think might be interested.
